

12th Conference on Sustainable Development in Municipalities

Municipal forum
Establishing integrated sustainability management

Tierp Municipality

Quick facts about Tierp Municipality:

Geography: Tierp municipality is situated in East Middle Sweden, in Uppsala county, 120 km north of the capital Stockholm

Population: There are approximately 22 000 residents in Tierp municipality, a third of which lives in rural areas

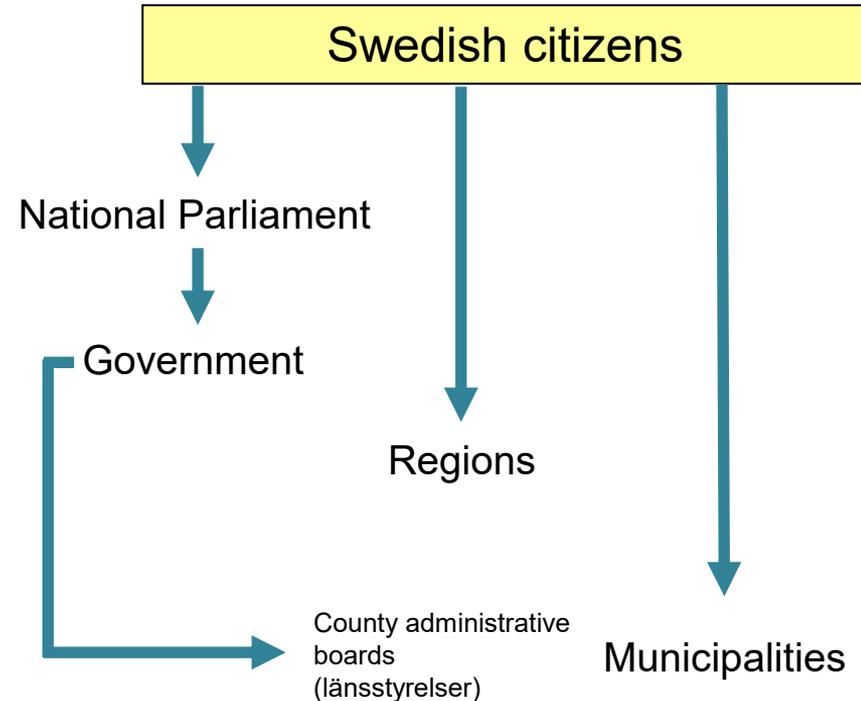

History: Tierp municipality has a rich history dating back to Iron age and Vendel period, which lives on today in industrial heritage sites such as Lövestabruk or Örbyhus castle

Economy: Many small companies in the green sector, farming and forestry, as well as several international companies in the engineering industry leading the green transition

Nature and leisure: With good access to forests and the long coastline, Tierp municipality offers opportunities for many leisure activities

- Municipalities have a long tradition of local self-governance and independent powers of taxation
- Municipalities are responsible by law of social services, schools, physical planning, environmental protection, waste management, water and sewerage
- Regions are responsible for health care and public transport
- The state is responsible of foreign policy, public order, higher education and research, social insurance and transfer payments

A selection of our local SDG targets:

Target 1.1 The proportion of adults and children living in economic vulnerability shall be reduced

Target 2.2 Preserve agricultural land

Target 6.3 Restore the water-related ecosystems in the municipality

Target 8.1 Support job development for all groups, including those far from the labor market

Target 13.3 The municipality's transports shall be fossil-free by 2030

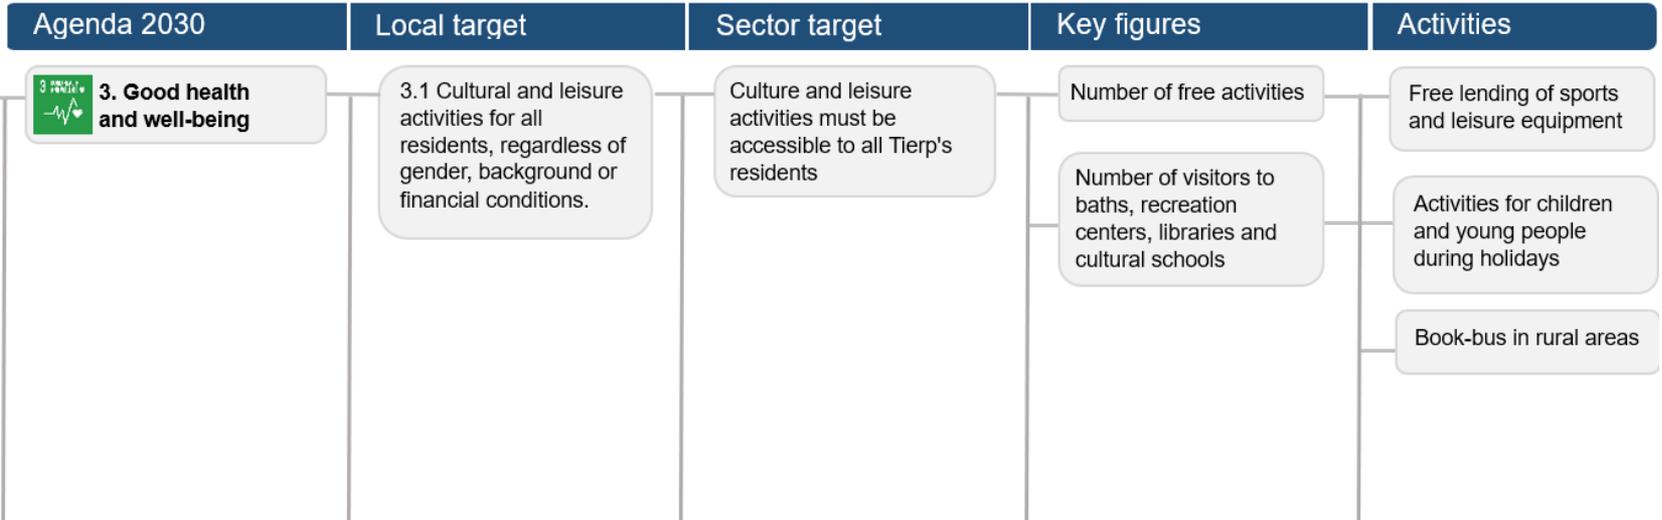

Target 16.1 Citizens' participation in the municipality's activities and development shall increase

Operational planning – 2025 Culture and leisure sector

Operational planning tool 2025

 Vi är på rätt väg för att uppfylla målet, men det går långsamt.
 Vi laggar bra till för att uppfylla målet
 Annu Fåga åtgärder, men utvecklingen går åt fel håll. Åtgärder krävs.

 Trenden för nyckeltalet är positiv
 Trenden för nyckeltalet är neutral, eller går för långsamt för att nå målet
 Trenden för nyckeltalet är negativ

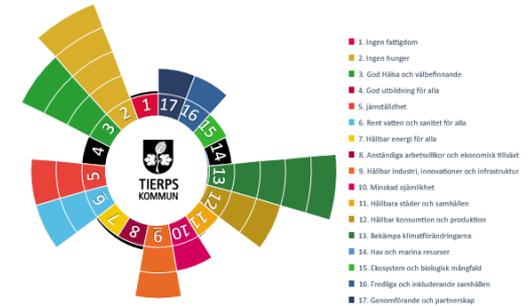

Citizens can follow the development and challenges on our website:

www.tierp.se/agenda2030

- Prior to a major political decision, each administrator shall carry out a sustainability analysis
- The bars show the impact on the sustainable development goals
- The method highlights synergies and goal conflicts
- The ambition is to make better and more long-term decisions

Beslutet har negativ påverkan på följande mål:
4. God utbildning för alla
14. Hav och marina resurser

HÅLLBARHETSANALYS AGENDA 2030
 18 / 68 SOLSTAPLAR

1.No poverty

Does the decision contribute to a move towards the eradication of poverty?

Contributes a lot
Contributes a little
Does not contribute (neutral)
Negative impact

Good examples

Citizens dialogue

More locally produced food

All preschools are sustainability certified

Local agreement with civil society

Empowering young people

40 sustainability pledges for the environment

Health talks for all 80-year-olds

Nature-based solutions

Circular procurement

Disabled care makes fossil-free joint deliveries

Synergies / goal conflicts in budget

- Voluntary local review (VLR) to the UN on local implementation and contribution to the 2030 Agenda
- Summary of governance model, annual report, good examples and local statistics
- Invited to High-Level Political Forum on Sustainable development 2024
- Municipalities and regions are at the forefront of sustainable development globally

- Many benefits when governing a municipality based on the SDG:s
- Localization of SDG:s crucial
- Holistic perspective necessary
- Goal conflicts and synergies must be made visible
- Courageous politicians and managers
- Tierp is moving towards sustainability – more goals achieved and positive trends locally, but we need to accelerate

Sikhjälma, Tierp Municipality

"The local governments makes it happen."

"It's all about hope."

Achim Steiner, administrator of the UNDP

Municipalities as pioneers of Sustainable Development
