CYCLING

- 63 % of all citizens in Copenhagen bike to school and work every day.
- 678,000 is the number of bikes in Copenhagen
- The bike to car ratio in Copenhagen is 4-1
- 26 % of all families with two or more children have a cargo-bike
- An investment of DKK 1 billion has been invested in cycling and bike infrastructure in Copenhagen since 2005.

CLIMATE ADAPTION PLAN

Cloud Bursts

- 300 projects endorsed by the city council December 2015
- 1,7 billion EUR
- The 300 projects are all the sum of all urban space projects the next 10 years – big lanes, temporary spaces, urban gardening, parks, parking lots, tunnels, pavements, grounds in housing developments, etc. The will all be integrated and have a clear climate adaptation function
